Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

As a grandfather, I too worry about safety and the growing gun violence but don't feel this bill will do anything to make law abiding citizens more secure or reduce gun violence. This bill would just create more and expensive restrictions on legal gun owners and burden law enforcement that is already stretched. I would propose a more novel approach, Enforce the gun laws that already exist. The criminals you think this bill will impact, don't care about our laws.

Thanks

Gary
