## HB 3075

It is sometimes impossible to measure the sheer magnitude of the hatred Oregon Democrat legislators feel for their fellow citizens.

Whether it's Manning's imbecilic "militia" bill (congratulations Jim, your bill was opposed by *100%* of people posting testimony) or Evans' efforts to crush eastern Oregon counties, their unbridled contempt for half the state is truly staggering.

MZ 144 "passed" within the margin of error for the voter fraud Oregon Democrats *admit* to. Deeply flawed, written by angry bigots, it was always intended to punish people who had done nothing wrong. It's hard to imagine a law that could be worse. But Kropf came through and actually found a way to express even *more* animosity towards 50% the state.

This piece of garbage was designed to be impossible to comply with. But the true lunacy of it is the ban on magazines for the *law abiding* while they remain easily and readily available for criminals and lunatics.

Congratulations Jason, you knocked that one out of the park.
