The fact that this argument is repeatedly brought up is appalling! I'm unsure if you democrats are truly ignorant, or just sad humans that lack any morals. Our right to bear arms was put in place to protect the citizens from another over reaching government aka you people! The whole culture of our once great state has been destroyed by self serving politicians. And by supporting these kind of restrictions on law abiding citizens it will serve to ruin every community in Oregon. These bills will not save lives but will cause more harm. Criminals don't not obey these laws and by stripping all of us including yourselves of our constitutional rights, you are slowly setting up the state and all of us in it for failure! Oregon is failing in the education of our kids, failing in the management of forests, failing in handling of homelessness, and now you want to completely fail in the safety of all citizens. The war in Ukraine has shown the whole world the importance of being well armed to face threats. If Ukraine wasn't armed they'd be russian again and you wish the same fate for all of Oregon. No more restrictions, leave the legal and responsible gun owners alone. Stop stealing our rights and tax dollars. You never know, this gun crowd some day may be all that stands between freedom or occupation by a foreign power.
