Measure, Appointment or Topic: HB3075

I adimitly oppose this bill. It goes against every measure of my rights as a citizen of Oregon and the United States of America. This measure is an over reach and in direct conflict of my Constitutional rights as an American. These rights are layed out very clearly and shall not be infringed upon. In no way does the balance of the state want a single county jurisdiction, who has proven time and again to be left wing and clearly anti-gun to speak for me. This measure is unconstitutional and should not be even considered.
