To persuade our government is our rights under democracy. To take it away to admit that's not what we are, and not what we're striving for. This is an overreach of government and police. If you can, repeal the bill entirely. How are we supposed to defend ourselves, and make ourselves heard, if even the most basic methods of assembly are punished. Oregon could be a beacon of good, instead of bowing down to the new regime. Don't give in to taking away our rights
