House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

Greetings-

This bill is absolutely an assault on our constitutional rights. Anyone can see that it is merely a veiled attack on second amendment freedoms. Utilizing an administrative process to stifle the freedom of the individual citizens of the state of Oregon is criminal behavior and should be condemned. Please cease with the attack on our freedom!! Oregon used to be a blue collar state that was a good place to live and work and raise children. What type of an example are we setting but allowing our freedom to be slowly eroded. I suspect the brave people who made an incredibly difficult journey to Oregon via wagon trains would be appalled by this attack.
