

Submitter:

Adam Miller

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

This measure fringes upon my 2nd amendment right. This measure is just another stepping stone of civil liberties being taken away little by little. It is wrong and there is no reason why law abiding citizens should have a harder time buying firearms or be limited to how many rounds should be allowed in their magazines. Gun distributors will have a hard time staying in business with this measure and that's not fair to them. This is an extremely misuse of government power and does not reflect the oath taken to defend the constitution. This measure should never have been created
