Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB968

Absolutely support this legislation. I have seen my coworkers get demands for thousands of dollars of repayment years after the alleged mistake. People shouldn't be required to hold on to their wages for years in hopes that they don't get a demand for repayment because the employer claims that there was a mistake along the way that is of no fault of the employee. It is long-passed time we pass this legislation.
