

Submitter: Tonya Buzzard

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

As a lifelong resident of the State of Oregon, I strongly opposed HB 3075. HB 3075 starts with placing undue hardship on our Law Enforcement that already has a hard enough job. Now people will have to be pulled from other areas of departments or hired when funds are already tight just to handle the permits to purchase. This bill also turns law abiding gun owners into criminals overnight, for doing nothing but what the Constitution of the United States allows.

This bill will do nothing about gun crimes, suicides, or mass shootings....why?

Because criminals don't abide by the laws. They will get their guns in some other manner like the black market, theft from a legal gun owner, theft from a gun shop, etc. When there's a will, there's a way. Criminals also have the option of choosing a different weapon to commit their crimes. Crimes will increase instead of decrease because only Law Enforcement or Military will be able to protect anyone....and they can't be everywhere and protect every resident in the state.

We need to get tougher on crimes and criminals themselves instead of taking away Constitutional rights of those who have done nothing wrong.

This Bill is just a feel good bill, as well as being Unconstitutional. It will just get tied up in the courts, costing millions of taxpayers dollars to fight, and the criminals continue to get off Scott Free. There are better ways to spend our tax dollars.
