

Submitter: Jim Denny

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

To whom it may concern, As a citizen of the United States and The state of Oregon I am appalled that those who are sworn to uphold and defend the US and the Oregon constitution you by these laws under consideration are in direct violation of the constitution. There is no reasonable argument against the "shall not be infringed" statement in the 2nd amendment. These laws infringe upon the God given right to self defense and the ability to bear arms. Especially grievous is the fact that the poor are specifically singled out as restricted from their rights due to the fees attached to these unconstitutional laws. You are being watched and the violation of your vows and the breaking of trust with the public you should be serving is seen by all. This country is sick of your lies and hypocrisy and things are changing and the liberal left is getting removed for their crap policies. Stop these unjust laws before they waste our time and money getting them to the Supreme Court to have them CANCELLED!
