Measure, Appointment or Topic: HB3075

Dear legislators, as a nearly 70 year old lifetime born and raised Oregonian, I feel that this bill has no place whatsoever in the state of Oregon or anywhere else. The United States constitution, second amendment specifically states shall not be infringed. The slim passage of this bill is an insult to all Oregon gun owners, who like myself have never shot anyone, hunts, target shoots, and owns one or more firearms, and abides by the laws, are simply being targeted by the anti-gun side of the state which is trying to stop anyone and everyone from purchasing, or owning a firearm, and or limiting the capacity of magazines that are in common use, and have been for decades, and literally owned by millions.

This bill needs to be shredded and put in the trash permanently!

I urge you to vote NO on HB 3075

Respectfully,

Lucien Gunderman
