Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

HB 3075 will require a class you cannot get, ask for permit that will cost a lot of money and take months to receive even if you could get the class, and only gives you the opportunity to start the entire process over again when you get to the gun store.

This Measure is not only unconstitutional it's a huge infringement on personal protection and access.

We oppose this bill not only on the merits of the restrictions but because it would be the most restrictive law on the books against personal liberty and freedom in the US,

This Measure is a total over reach and constitutes a Gun Ban!

We have also contacted our local representatives to express our displeasure of this treasonous act. We are also ashamed of the originators of the Measure to seemingly dream up such an approach that steps on so many freedom loving Oregonians, but a Measure that will have absolutely no effect in reducing crime, suicide, murder or other malicious activity from criminals that love this infringements so good people can't protect themselves or families. And to cap it off, lessen the restrictions on Sexual Predator Reporting.

How could you write a bill without the training application in place or timeline to guarantee ownership? It's a TOTAL GUN BAN, shameful Oregon

I need to work to provide for my family so I'm unable to attend on Monday for personal testimony, please take my viewpoint in great regard.

Thank You
