

Submitter:

Josh Kelsey

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

When evaluating your thoughts and deciding to support or oppose this matter please come open minded and ready for an open conversation. I would encourage you to lean towards opposing this bill while considering what actually happens in real life. While there have been unfortunate events in this state and across the nation I do not think emotions should play into law. I believe passing this bill will only keep law abiding citizens in the same position they already are law abiding.

If one would like to feel they are making the world safer by decreasing magazine capacity, requiring permit to carry, or take a class is wrong. While taking a class is beneficial to those who have not taken any formal training it does not make one law abiding. Same goes for permit to carry or magazine capacity.

I struggle to understand how those whom support this topic think a concealed carry license, hunters safety course or other programs put on across the state are not acceptable programs. Supporters failure to understand how the system currently works is not a reason to make owning firearms more restrictive for others.

I truly do feel the individuals (criminals) we are concerned about will continue down the same path regardless of this bill passing or failing. I urge each and every one of you to set aside the tornado of thoughts that go through one's mind and look at the eye of the storm. Once we all can focus on the true issue at hand is when one can make just decisions. Please oppose Bill 3075!
