

Submitter: Doug Steeprow

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Why should law abiding citizens have their freedoms infringed upon. Enforce the laws on the books and hold criminals accountable rather than letting them out. If there are consequences for law breakers things would change. These (social experiments) like no cash bail and new gun laws have not worked. The policies in these democratic cities and states are an abject failure. No, this is not my perception. Facts, common sense and reality speak for themselves.
