

Submitter: Jessica Farrell

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB2851

Federal, state, and local governments have a well-documented, very-long history of invoking terrorism and related laws to surveil and target Black and brown communities and silence those who engage in political dissent – including racial and environmental justice activists. Please do not pass HB2851. It will endanger our rights to free speech and expression. Vote no.
