

Submitter: Dave Farmer

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

The measure 114 is US unconstitutional.

The 2nd ammendment was adopted to grant citizens reasonable parity to protect their family from the Federal Government. Also animals and Native Americans (who at that point in time could be a threat), and attack from other countries.

Having a permit requirement is unreasonable. There is NO State authority that can do this. There is no plan to start availability of this. This stops citizens from obtaining a gun in a timely fashion. There is no State agency to offer training. Limiting magazine or clip capacity stops me from having weapon (defence) parity from possible threats. Other Americans, but more importantly the Federal Government Forces. Measure 114 infriges on my right to KEEP AND BEAR ARMS.

THANKS
