

Submitter: Kyle Viestenz

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

The permit-to-purchase and standard capacity magazine restriction proposed in HB 3075 will not deter violent criminals or increase public safety but only add an undue financial burden to, restrict the constitutional rights of and criminalize the law abiding citizens of Oregon. I strongly oppose this legislation and would urge all legislators to promote public safety by promoting the rights and financial well-being of law abiding Oregonians instead of penalizing and criminalizing them through this legislation.
