

Submitter: David Fossholm

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Dear Legislators,

I strongly oppose any additional modifications to measure 114. This bill only sidesteps the legal challenges that are still ongoing with Measure 114. Why is there an exemption for law enforcement? Are you telling us normal citizens that the police are unable to pass the permit requirements and need exemption? That is very concerning. Oregon has one of the lowest firearm incident rates in the country and already some of the strongest laws. You keep saying you want compromise but then wonder why gun owners never come to the table with anything - THIS IS WHY. All we do is give, give, give, and yet, we get nothing in return but more hoops, more costs, and more slippery slopes. As a very 'middle of the road' voter, I strongly encourage you to vote no on this nonsense and realize this is overstepping.
