Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Please rethink this measure, it really will not do anything to stop criminals or enhance safety, they ONLY thing this will accomplish is to make life more difficult to regular citizens who actually pay attention to Laws in the first place, and create millions of ready made criminals out of regular folks, Oregonians who have done nothing at all wrong, criminals deserve to actually be held accountable, not coddled, and regular Oregonians do not deserve to be treated as criminals, yet that is what this will do, Please re evaluate, and stop this craziness,
