Measure, Appointment or Topic: HB3075

I oppose HB3075. This is a horrible piece of legislature that does nothing but turn law-abiding, peaceful, citizens into criminals. With no grandfather clause and an affirmative defense on the magazine possession portion, it will snare more otherwise innocent people than anything else. Futhermore, it will have little to no impact on violent crime in our state and instead encourages the transfer of firearms to be done illegally, rather than utilizing safeguards already in place.

As a lifelong Oregonian, the overreach of our state government here is very distressing. This is not a partisan issue. This bill is bad for ALL Oregonians.
