

Submitter: Danny Volk  
On Behalf Of: Volk Lumber  
Committee: Senate Committee On Labor and Business  
Measure, Appointment or Topic: SB1061

I am in support of a lumber grading program.

As most of us know, owning a small business is full of challenges, one of which is going head to head with big cooperations with pricing and product availability.

Having a resource to train employees on grading lumber will give small sawmill businesses such as mine a leg up. It would provide us an opportunity to supply contractors lumber that will meet Oregon building codes.

Sincerely,

Dan Volk

Owner and CEO
