

Submitter: GRANT ROBERTS  
On Behalf Of: Underprivileged and oppressed people of Oregon  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

This bill, along with measure 114, will place an undue burden on the underprivileged of Oregon, by requiring them pay money they may not have, to lawfully protect themselves. The right of self defense is not just for the wealthy, and can be even more important for the poor, who often live in less safe conditions. Not everyone can afford the time or money to take a class and pay for a permit, along with the childcare required during the class. This bill is oppressive, cruel, racist and classist, and must be stopped.
