I am firmly in opposition to this house bill. I was raised on a century farm and have been around local family farmers all of my life. The last thing our family and other small family farms need is more government regulation and more bureaucracy weighing down on all the work and farm management that we do. In my opinion, this is a farm killing bill as well as an employment killing bill. Working on these small farms helped pay my way and many of my friends through college. My question is why you want to take this opportunity away from so many Oregonians? Thank you for considering my testimony in my opinion.
