

Submitter: Christopher De Martini
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

I am opposed to this measure
It punishes me on behalf of the actions of other imbalanced individuals and makes me into a criminal even though I have done nothing wrong

I am particularly against the affirmative defense requirement of needing to prove that I possessed pre-ban magazines as I have not kept receipts with dates. This is a clear violation of due process and assumes guilt, needing to prove innocence, as opposed to innocent until proven guilty

This law was not made in good faith; it targets and punishes lawful individuals for simply having a differing opinion and choosing to exercise their right to the second amendment. It is not based on facts or reason, but knee jerk reaction. More concentration should be placed on protecting the schools and mental health resources

The secretary of state at the time was proven to be highly corrupt; bought and paid for by La Mota.

The parties in favor have been funded by out of state organizations intent on removing the rights of the citizens of Oregon. The opposition to 114 is the home grown, grassroots organization

All in all this is a poorly written, poor attempt at a law and has many unanswered questions and relies upon processes that are not in place and have no base in reality effectively limiting the second amendment right of all people, of all genders, and all colors and backgrounds.
