

Submitter:

Aliah O'Neill

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB2851

This bill must not be expanded in any way. As the current administration suppresses free speech and our right to protest, Oregon should be working to keep our rights intact and counteract these violent actions. The proposed modification, which increases methods by which the government can surveill the people, is a further violation of our constitutional and human rights.
