

Submitter: Taylor Charles

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB2851

As an Oregon citizen, I strongly oppose modifying the definition of "critical infrastructure" to include a terrestrial-based cable or wire communication facility for purposes of the crimes of domestic terrorism in the first degree and domestic terrorism in the second degree.

This would be an infringement on our 1st amendment rights and go against everything we stand for as Oregonians and Americans.
