On Behalf Of:  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075  
Subject: Opposition to Unconstitutional Gun Control Measures

Dear house,

I am writing to express my strong opposition to MB3075 as it infringes upon the constitutional rights of law-abiding citizens. While I understand the intent to improve public safety, this measure will do little to stop criminals who already disregard the law. Instead, it punishes responsible gun owners, stripping them of their ability to protect themselves, their families, and their communities.

The issue is not law-abiding citizens exercising their Second Amendment rights; it is individuals who commit violent crimes with no regard for existing laws. More restrictions will not deter criminals but will instead leave good people defenseless. Furthermore, this proposal is unconstitutional and morally unjust, as it denies Americans their fundamental right to self-defense.
