

Submitter: Andrea Treadway

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB2851

I am writing to urge you to vote NO on HB 2851. In a time when the Trump administration is weaponizing terrorism laws to silence anyone they feel to be opposing their position, it is shameful that representative Paul Evans has introduced this bill. At every level, this country has invoked terrorism and related laws to unjustly surveil and target nonwhite communities and those who engage in political dissent. Shame on you, Paul Evans! You could spend your very finite time on this earth making it a better place and instead, you've drafted a bill that could be used to silence political dissent while our democracy is crumbling. People over property!!!!!!
