

Submitter: Christina Gillespie

On Behalf Of:

Committee: House Committee On Labor and Workplace
Standards

Measure, Appointment or Topic: HB3838

This unnecessary board and their regulations will most definitely put a strangle hold and the agencies and facilities that provide such necessary care to our elder population. If facilities and agencies close due to over-regulation changes and costs that are not covered by increased rates you in effect are reducing the options to the community we all care to protect, especially in Rural communities throughout the state. There are so many adverse affects of this bill that most certainly will shut down more of the needed resources for our Senior population.
