Measure, Appointment or Topic: HB3075

Dear Judiciary Committee,

As a pediatrician & grandparent, I urge you to vote for HB 3075. It's a tragedy that 1200 Oregonians have died from gun tragedies while the will of Oregon voters was held hostage to lower court judges who were specifically targeted as gun-lover. The lawsuits in front of the Harney County judge was paid for by out of state gun lobbies. Having seen kids die from guns. Since our mental health services are dwindling also, which might help prevent the type of suicide I saw in 1 of my patients, we really need Measure 114. I am outraged that these shenanigans upheld, for almost 2 years, a common-sense gun measure that is already the law! Oregonians came together to pass it.

We shouldn't have to wait longer.

THANK YOU, Dr. Virginia Feldman MD, FAAP
