

Submitter: George Feldman
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075
To Our Representatives:

Please support HB 3075!! This will ensure smooth enactment of the gun safety bill which we Oregonians passed. We have lost about 1200 of our fellow Oregonians to gun violence in the past few years. We must have common sense gun laws which will decrease the probability of future deaths. Obviously, it won't eliminate all deaths and it can't get rid of all the guns now in circulation, but we (You!!) must start somewhere. Please help save our kids, grandkids, fellow citizens. As a physician for nearly 50 years, I have seen way too many preventable gun deaths.

George W. Feldman, M.D.
Internal Medicine and Critical Care Physician.
