Measure, Appointment or Topic: HB3075

Clearly the public wants Measure HB 3075 to pass as we have once passed the measure and but for the fact that the local Judge overturned the decision we would be looking at new law with regard to this gun issue. The out of state gun lobby forced the issue in the court and that has delayed the outcome.

We have data that shows 1,200 Oregonians have died from gun violence and now is the time for you to pass HB 3075 to see that Measure 114 goes into effect as soon as possible.

Please do what is proper for the citizens of Oregon and pass Measure 3075
