

Submitter: Candice Fuller

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This is in response to HB3075. This is so unconstitutional and once again over reach from our government. Not only does the US constitution state that we have a right to bear arms and do not need permission to do so from our government but Oregon Constitution also states we have the right to bear arms. When government allows criminals to have more rights and freedoms without consequences it is up to citizens to protect themselves, family, and community. When our government stops coming for law abiding citizens and start punishing the real offenders maybe then we can have a conversation about 2A but until then stay in your lane and back off trying to take our guns.
