

Submitter: Desiree Mariscal

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB2851

To all Members of the House Committee,

I urge you to please repeal this bill entirely. Oregon should be working to counteract any actions that would take away civil liberties or suppress freedom of speech. We need to protect our first amendment and our right to voice our opinion on issues that affect the public; our rights, our environment and habitat, and our well-being. We do not need increased surveillance and our civil liberties being taken away. We need our constitutional and civil rights to be protected and not further violated by bills like HB 2851. Please repeal this bill and protect our civil rights and freedom of speech.

Thank you,
Desiree Mariscal
