House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I am 1000% against this bill and any bills associated with 114 being implemented. HB114 impedes on our 2nd amendment right to keep and bear arms. Nowhere in the constitution does it say that anyone has the right to restrict what gun or what size of magazine we can possess. Criminals do not abide by the law and implementing 114 would put the law abiding citizens further at risk. Our right to keep and bear arms helps us protect ourselves and property. Also in some occasions, it helps us protect other citizens from criminals. All these bills need to be stricken down. The drug cartels and the Mafia have access to automatic weapons, which unless registered with the feds, are illegal for most citizens to own. They didn't go through the proper channels to possess those guns, they broke the law. Imposing 114 will greatly restrict our chances of protecting ourselves from those types of people. Do the right thing and abolish these bills and stand up for the American people. Take the stand on protecting our constitutional rights to bear arms. We the people, in fact, do not agree with these bills.
