

Submitter: Preston Conroy

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Stop making normal people criminals. The physical location of lawmakers makes these measures sound like they don't affect anyone, They do. Not only are the things you seek to remove a hobby to tens of thousands of everyday Oregonians. That hobby also serve as a stark reminder to robbers and rapist to think twice about what could be behind that door. Police are spread thin and response times are slower than ever. Measure 114 and bills like them means that criminals know they have the advantage. This bill is not only negligent ignorant but also deadly.
