Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2963

On behalf of myself and the Bike Milwaukie I support having access to Ebike transportation for all citizens.

Although the cost of Ebikes is higher than non-e-bikes, the choice of commuting by Ebike takes more auto's off the road, reduces the carbon footprint, and encourages a healthy lifestyle. The cost of an Ebike versus the cost of an auto is substantially less but rebates would certainly help low income citizens.
