

Submitter: Tasya Herskovits

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB2851

Expanding this bill is a violation of our constitutional rights. At a time when the current administration is increasing surveillance and suppressing the right to protest, it is more important than ever that the state of Oregon does everything it can to counter those actions. At this point there is no due process for being labeled a "terrorist," and people are already being arrested for peaceful criticism and advocacy. Taking away more of our rights to free speech endangers the safety of people in Oregon. Please oppose HB2851.
