

Submitter: Aaron Pruden

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This bill is not only unconstitutional and crafted by people of little information regarding firearms, but it is also detrimental to law abiding citizens and law enforcement. There are already background checks to purchase firearms, requiring a permit will do nothing but create a larger financial and time burden on the law enforcement agencies. Also banning standard capacity magazines that are 11+ rounds turns people that have owned many configurations of many firearms legally for many years into criminals overnight. No to measure 114 and other foolishly crafted bills by incompetent people.
