

Submitter: Walt Mintkeski

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am a father and grandparent of four school aged children. I am very concerned about their safety in this age of mass shootings and teenage suicides. That is why I helped put Measure 114 on the ballot by gathering signatures and urging my family and friends to vote for it.

I strongly support HB 3075-1 because it will help ensure a smoother and more rapid implementation of Measure 114. Please pass this bill as presently written with the -1 amendment so that the permitting process for gun sales specified in Measure 114 can begin as soon as possible.
