On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

As a Democrat and Oregon native, with the shocking infringement of our democracy under the current administration, we Oregonians must not further erode our ability to protect that democracy. HB 3075 will disproportionately harm and create barriers of entry for the populations most at risk of civil injustice under the current administration. It is my request that Oregon's judiciary protect and empower Oregonians, not disarm us at a time like this.
