

Submitter: David Wall  
On Behalf Of: Mr Oregon OPPOSES SB 688  
Committee: Senate Committee On Energy and Environment  
Measure, Appointment or Topic: SB688

I OPPOSE [SB 688 -1, -2, -3].

[SB 688 -1, -2, -3] reflects the 'WOKE' and or Communistic Approach to monitoring electric utilities.

[SB 688 -1, -2, -3] expands (and will continue to expand) the Public Utilities Commission-whose members are appointed and Not elected, to wield unprecedented power and authority over electrical providers and those compelled to use their electricity.

[SB 688 -1, -2, -3] will have ancillary affects to the choice and use of Household products such as, Water Heaters, Stoves, Ovens, Refrigerators, Freezers, Washers, Dryers and et cetera.

[SB 688 -1, -2, -3] will continue to cost the GENERAL FUND untold allocations to subsidize electrical and capital costs to those who cannot afford to live in Oregon but for Government subsidies. The taxpayer money, in part my money, will be used to subsidize the aforementioned and even Illegal Alien's electrical needs until they are identified and deported.

[SB 688 -1, -2, -3] will mandate the electrical providers to provide accurate accounting as to their profits. This communistic edict will spread to every public utility provider. What additional business entities will be compelled to provide 'profit' information?

[SB 688 -1, -2, -3] will do nothing to save the climate and or the planet, it is a system of control over energy-who gets it, who (and when) uses it and who pays for it.

[SB 688 -1, -2, -3] is designed to promote Solar Power-a Loser for Oregon's power needs.

[SB 688 -1, -2, -3] should be relegated to the ashcan in favor of "Natural Gas Co-Generation Power Plants."

[SB 688 -1, -2] [\$2,000,000] budget allocation from the GENERAL FUND is a foolhardy and asinine waste of taxpayer's money, in part-my money.

David S. Wall

Mr. Oregon Concur and says, "Solar Power and Storage infrastructure is too expensive for public investment. The Distributed Power Plants and Community Power will be very expensive."
