

To whom it may concern. Opposed measure 114.

I Paul Ghinga do not support measure 114 because it's unconstitutional. It does nothing to curb gun violence. As we all know, criminals do not obey laws. Most of the guns that have been used in crimes are obtained off the streets. All this does is make good people harder to obtain firearms. To get permission from the government to purchase a firearm it's very unconstitutional. We have laws already on the books and background checks when purchasing firearms from FFL's . Please stop going after good citizens of Oregon and please just be harder on the criminals that break gun laws! We have plenty of laws on the books. We just need to enforce them. Please don't make me a criminal overnight. The magazine band will do nothing to curb gun violence. I'm not sure why 10 rounds is the safe number of rounds for fire arms. Is the 11th round supposed to be a killer around? I don't understand why taking and neutering my standard capacity 30 round magazine will do anything to curb violence! As you know, it takes more than 10 rounds sometimes to stop a perp. Why make it harder on good hard-working Oregonians to protect themselves? Standard capacity magazine been legal for over 30 years here in Oregon. They are everywhere all over Oregon. I'm not sure what neutering are standard capacity magazines will do for stopping violence. I urge you to please not implement balance measure 114. We all know it's unconstitutional from the Supreme Court already. Shall not be infringed is not a suggestion. It's the rules. Thank you for your time. Sincerely, Paul Ghinga.
