SB437

In reading this, and in reading other for and against testimony, it seems that this bill needs some work to make things clear. You. have so much to do, maybe just back to the drawing board, or a simple amendment would help. We have a "throwaway" type of paper here ...Eugene Weekly, and this would help them to keep going. They have done some really good work for our community. Our other paper has done as little as possible as it is part of the Gannet organization, and they bought our paper here, which was excellent, and have driven it into the ground. Very little actual information about our city. Evidently as this is written, the Eugene Weekly would not be allowed to continue the Legal Notices. Thanks for all you do for us.
