HB3755

As a person who is well over 65, have owned my property for a significant time, and worked for that privilege, I feel this bill would further damage our system of paying for our schools. We, in Oregon, many years ago made the mistake of not raising our property taxes, if you remained in your home. It gutted the only way that we pay taxes in Oregon. With no sales tax, this is it for how we pay for our services. I no longer have children in school, but the children who are in school really deserve our support. They are our future.

Please do NOT pass this bill any further.

Thank you for all your work.
