

Submitter: Jason Waites

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed...

Law abiding citizens will comply with the law if this is enacted because they will have no choice but to do so..

Criminals on the other hand will get their hands on guns any way they can, legally or not.

This will do nothing for public safety and just add more hoops to go through for law abiding citizens and ffl dealers. The first sentence for reference to anyone not aware is the second ammendment to the United States Constitution.

This will just be another blow to a state I once loved calling home.
