

Submitter: Susan Calhoun

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I oppose. This makes law abiding citizens into criminals. No criminal is going to follow these procedures to get a gun. They will get them illegally. Suicide; this won't prevent it. I have known at least 6 people who died by suicide. One took pills, 4 hung themselves and one who was also 98 years old and hated the way he was living used a gun. This will make it hard for them to get guns but it won't change what they are planning to do because there are several ways to kill yourself. Remember the holocaust and how the nazis gained control: they conned Jews into giving them their guns by saying they would protect them. They disarmed them so they had no way to fight back. Gov Kotek wants to lower sentences for sex offenders so they have less jail time. Oregon allows illegals including criminals from other countries as a sanctuary state. Oregon does little about hard drugs so crime follows that but this bill wants to make it hard for the law abiding citizens to be able to feel safe in their homes because it is unconstitutional and takes away second amendment rights.
