

Submitter: Robert Lee

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Please explain to me how this is going to stop shootings and promote public safety. Why as a someone who has a concealed handgun license who did a citizens academy through my local sheriffs office who has demonstrated firearms safety on more than one occasion not to mention completed a hunter safety course have to have a permit to purchase a firearm where in the constitutions of both Oregon and the United States says I need a permit to purchase a firearm. Since this is a statewide measure explain to me where in Oregons constitution says this can only be challenged in one circuit court? We already have laws in place to prevent guns from falling into the wrong hands like criminal background checks and red flag laws. Why do we need this?
