Measure, Appointment or Topic: HB3075

You the politicians are no better than the thugs you give carte Blanche to every day. You don't allow the law to work as it was intended. Instead You hang a sword over the people who pay the bills for the state. We are not children You are not the parent. Why do we need your permission -? Criminals aren't asking they are safe and laughing all the way down the street. Until common sense comes into play I fear you are lost.
