

Submitter: Chris Chandler

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Please drop this nonsense now!!! Please at least wait until the 2 law suits on 114 are finished. You legislators know full well that ramming this through right now is illegal, immoral and plain stupid. Parts of measure 114 already have been struck down in other states and/or are in current litigation. This will not save one single life. It's only about punishing lawful citizens that disagree with you. Once again the dictator democrats in Salem want to ram through an illegal bill that we the taxpayers will have to spend a gazillion dollars fighting in court. In the end we will win, but in the meantime honest citizens will be automatically labeled criminals because we disagree with the dictator democrats in Salem. The 2 liberal judges that have sided with you will be eventually told they are wrong. Nothing in this bill is legal or about safety and you know it. I could spend days and days writing out the legal arguments, but the judge this week stated that their decision was not based on facts. So what good would it do? You legislators absolutely refuse to listen to facts and science when it's something you disagree with. Enough!! I adamantly oppose this bill and any like it.
